JCOIN2.0 Client CDE REDCap Project
Track Changes and Updates

Date of new CSV file release	CSV filename / Version	Changes and updates	Implementation instructions
5/20/26	Version 1 MAARCJCOIN20ClientCDEs_DataDictionary_2026-05-26	N/A	N/A
6/3/26	Version 2 MAARCJCOIN20ClientCDEs_DataDictionary_2026-06-02	1. Item D7 re: work/school arrangements: We neglected to include a field that captures a person's disability if they select the "Too disabled for work" response option. The revised project includes this field. 2. Item D11 re: transportation is an OPTIONAL item, but was not marked as OPTIONAL in the project. The field is marked as OPTIONAL in the revised project. 3. S2aa: The note in the field label should have read "Note: Skip if ALL of S1a - S1f are 'Never.'" This change is reflected in the revised project. 4. R2 matrix: There was a typo in the response options. The option "or more years ago" was changed to "**One** or more years ago" in the revised project.	1. Item D7 re: work/school arrangements: To add this field: a. Click **Add field** to create a new field b. Select "Text Box" as the field type c. The field label should read: "**D7disability. Please describe disability.**" and label the variable name: "work_disability" d. Click **Save** e. Add branching logic by clicking on the green branching icon in the field. Type the following into the "Show the field ONLY if…" box: **[work_school(13)]='1'** f. Click "Update and Close Editor" and then "Save" 2. Item D11 re: transportation: You may include or omit this field, depending on the needs of your study. 3. S2aa: The note in the field label should read "Note: Skip if ALL of S1a - S1f are 'Never.'" To add this note, click on the pencil icon in field S2aa and add the note to the field label. 4. R2 matrix: There is a typo in the response options. The option "or more years ago" needs to be changed to "**One** or more years ago." This can be done by clicking on the Edit pencil for the matrix, scrolling down to the Matrix Column Choices, and changing the response to "One or more years ago."
6/5/26	Version 3 MAARCJCOIN20ClientCDEs_DataDictionary_2026-06-05	1. The branching logic for item U5d was modified from [detox_meds_add(6)]<>'1' to **[detox_meds_yn]='1' and [detox_meds_add(6)]<>'1'** 2. The embedded field variable name in J9 was specified incorrectly. It was changed from {specialty_type_other} to **{specialty_court_other}** 3. The field type for J14 was changed from Descriptive Text to **Text Box**.	1. To correct the branching logic: a. Click on the green branch icon in the U5d field and change the logic to: **[detox_meds_yn]='1' and [detox_meds_add(6)]<>'1'**. Note that REDCap uses square brackets around variable names. b. Update and Save the changes. If your project is already in Production mode, you will have to submit the changes.

		4. We added additional validation for fields including "None" or "None of the above" response options that will prevent a user from entering both "none" and another response option: Fields affected: D5a, D8, J1, J1a, J6, J16, U1, U5b.	2. The embedded field variable name in J9 was specified incorrectly. It needs to be changed from {specialty_type_other} to **{specialty_court_other}** a. Click on the pencil icon for J9 to edit the field. Scroll down to the "Choices" box and change the bracketed variable name as noted above. b. Note that these are *curly* brackets to denote an embedded field. c. If your project is already in Production mode, you will have to submit the changes. 3. The field type for J14 needs to be changed from Descriptive Text to **Text Box**. a. Click on the pencil icon to edit J14. Select Text Box from the Field Type pull-down menu. Save changes. 4. To add this validation to fields that contain "None" or "None of the above": a. Click on the pencil icon for the field. Scroll down to the pink Action Tag/Field Annotation box and click inside it. b. Type the following in the box: i. D5a: **@NONEOFTHEABOVE='1** ii. D8: **@NONEOFTHEABOVE='1'** iii. J1: **@NONEOFTHEABOVE='0'** iv. J1a: **@NONEOFTHEABOVE='0'** v. J6: **@NONEOFTHEABOVE='4'** vi. J16: **@NONEOFTHEABOVE='13'** vii. U1: **@NONEOFTHEABOVE='0'** viii. U5b: **@NONEOFTHEABOVE='6'** c. For each field, after making the addition, click Update and Close Editor, then Save.
7/10/26	Version 4 MAARCJCOIN20ClientCDEs_ DataDictionary_2026-07-10	1. Delete event-specific branching logic from fields D5, D5grade, and D5other, if capturing education at follow-up. 2. Add branching logic **[insurance]<>'1'** to field D8a. 3. Change S2f1 branching logic to: **[overdose]='1' or [overdose]='2'**.	1. Click on green branching icon in field and delete **[event-id]="#####"** logic. Save changes. 2. Click on green branching icon in field D8a and type **[insurance]<>'1'.** Save changes. 3. Click on green branching icon in field S2f1 and change branching logic to: **[overdose]='1' or [overdose]='2'**. Save changes.
7/24/26	Version 5 MAARCJCOIN20ClientCDEs_ DataDictionary_2026-07-24	Replace Deflection Intercept items J13-J19 with finalized items as follows: • Add to Deflection Intercept section header: Terms and Definitions:	1. Go to each field and click on pencil icon to edit. Copy and paste each new item and new response options into field. Then Save and Submit Changes.

		Emergency Responder: Emergency medical staff, paramedic responders and fire fighters Alternative Responder: Trained first-response professionals such as social workers, mental health professionals, and peer support specialists. These individuals are not police officers but may work for or with the police department. Co-Responder Team: A police officer who responds as a pair with an alternative responder • New J13 field label: J13. Being Offered Help Instead of Arrest: In the past year, have you had an encounter with FIRST RESPONDERS (*police*, *emergency responders, alternative responders, or co-responders)* or the COURT SYSTEM *(judge, parole or probation officer, District Attorney)* where they **OFFERED** to connect you to services (such as substance use treatment, housing, or counseling) instead of immediately arresting or charging you? (This excludes situations where you may still have been charged later.) (OPTIONAL) • New J14 field label: J14. Who Offered Help Instead of Arrest: In the scenario(s) you identified in J13, who has offered to connect you to services? (Select all that apply). (OPTIONAL) o J14 response options: ▪ 1, Police officer ▪ 2, Emergency responder ▪ 3, Alternative responder ▪ 4, Co-responder team - a police officer who responds as a pair with an alternative responder ▪ 5, Court/judge/parole or probation officer/District Attorney ▪ 6, Other: {deflection_who_other} • J14other: Change branching logic from [deflection_who(7)]='1' to [deflection_who(**6**)]='1' • New J15 field label: J15. In the scenario(s) above, did you **ACCEPT** any offers to connect you to services? (OPTIONAL) • New J16 field label: J16. Services You Received: In the scenario above, following acceptance of help, which of the following services did you receive? (Select all that apply.) (OPTIONAL) o J16 response options: ▪ 1, Case management - help from a professional connecting you to services like housing or healthcare ▪ 2, Substance use treatment - services that help people reduce or stop drug or alcohol use	

		▪ 3, Mental health services ▪ 4, Medical care ▪ 5, Detox or withdrawal management - short-term care to help manage symptoms when stopping substance use. ▪ 6, Sobering center- A place where someone who is intoxicated can stay temporarily to recover ▪ 7, Housing assistance – emergency shelter ▪ 8, Housing assistance – longer-term or permanent housing ▪ 9, Employment assistance ▪ 10, Transportation assistance ▪ 11, Food or meals ▪ 12, Bathrooms or showers ▪ 13, Identification or legal document assistance ▪ 14, Domestic violence services ▪ 15, Peer or navigator support ▪ 16, Drop-in center ▪ 17, Other: {deflection_received_other} ▪ 18, I did not receive any services • J16: Change Action Tag from @NONEOFTHEABOVE='13' to @NONEOFTHEABOVE='1**8**' • J16other: Change branching logic from [deflection_received(14)]='1' to [deflection_received(1**7**)]='1' • New J17 matrix header text: J17. <u>Willingness to Accept Help in the Future</u>: If you needed help accessing services in the future (such as substance use treatment, housing, or other support), how likely would you be to accept help from the following people if they offered it instead of having you arrested or charged? (OPTIONAL) • New J17 matrix field labels: o J17a. Police officer o J17b. Emergency responder (EMS, fire) o J17c. Co-responder team: (police + alternative responder pair) o J17d. Alternative responder (e.g., community paramedics, mental health clinicians, social workers, and peer specialists) o J17e. Court/judge/parole or probation officer/District Attorney o DELETE J17f [deflection_community]

		• New J18 field label: J18. <u>Trust in Police for Deflection</u>: Would you trust the police in your community to offer people help and services instead of arrest? By "trust" we mean believing that someone will act in your best interest or do what they say they will do. (OPTIONAL) • New J19 field label: J19. <u>Awareness of Deflection</u>: Are you aware of any programs or policies in your community where police or emergency responders connect people to services instead of arresting them? (These are sometimes called "deflection programs.") (OPTIONAL)	
10/08/26	Version 6 MAARCJCOIN20ClientCDEs_ DataDictionary_2026-10-08	Add the following phrase (shown here in bold) to the 15 fields below in order to accommodate use at follow-up: "In the past 90 days OR during the 90 days prior to the start of your current detention **[OR, if at follow-up: *Since the last assessment*]**...." • J1a [legal_inv90] • J2 [arrests] • J3 header • J4 [criminal_charges] • J5 [criminal_outcomes] • J6 [civil_involvement] • J7 [civil_court_times] • J13 [deflection_offer] • U2 [hospital] • [hospital_header] • U3 [treatment_facility] • [tx_header] • U4 [outpatient] • U4 [primary_times] • U5 [detox_meds_yn]	1. Click on pencil icon for each field and add follow-up phrase. Submit changes. 2. Add Justice History and Interactions and/or Healthcare Service Utilization instruments (and all other instruments being used at follow-up) to follow-up events as instructed in the REDCap protocol document.
